IMPORTANT NOTICE!

For the information of our Subscribers we present here Paragraph 22 Section 28 of our General Exchange Tariff furnished this company by the North Carolina Utilities Commission.

22. Telephone directories distributed from time to time by the telephone company remain the property of the telephone company, shall not be mutilated, and shall be surrendered upon request or upon delivery of the subsequent issue. No binder, holder, insert, auxiliary cover or attachment of any kind not furnished by the telephone company shall be attached to or used with the directories owned by the telephone company, except that this prohibition shall not apply to a subscriber-provided binder, holder, insert or auxiliary cover which contains no advertising, and which is not so attached as to impede reference to essential service information or otherwise interfere with service.

General Information for Subscribers

CLASSIFICATION OF AREAS AS THE BASIS FOR FURNISHING TELEPHONE SERVICE—Economical operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company therefore does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire except where protection is afforded. The general plan for furnishing telephone service as authorized in the General Tariff is based on a classification of areas by types for the determination of the classes of service available and for the application of rates.

APPLICATION FOR SERVICE—The initial application for telephone service must be made on the company's standard application form, and signed by the applicant or his duly authorized agent, to whom service is to be billed. Applications for additional service may be made either orally or in writing and is considered as forming a part of the initial application. The company reserves the right to refuse service to any applicant that is found to be indebted to the company for service previously rendered.

VERBAL MESSAGES—The Telephone Company will not transmit messages, but offers the use of its facilities when available and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

COMPETITION—All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the subscriber, nor for performing any part of the work of transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid by any party other than the Telephone Company without the written consent of the Company.

ERRORS IN TRANSMITTING—In view of the possibility of errors and difficulties in the transmission of messages by telephone and the impossibility of fixing in all cases the causes thereof, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments.

TELEPHONE NUMBERS—The subscriber has no property right in the telephone number or any right to continuance of service through any certain central office and the Telephone Company may change the telephone number of the central office designation whenever it deems it desirable in the conduct of its business.

LOCAL MESSAGES—A "Local Message" is a communication between stations bearing the designation of the Central Office districts within the same local service area.

PREMISES—The term "Premises" is defined as the building or portion of a building owned or occupied by the subscriber in the conduct of his business or as a residence.

MOVING EQUIPMENT—The subscriber shall not disconnect or remove, or permit others to disconnect or remove from the premises any equipment and lines installed by the company. Subject to the rates and charges applicable, the company will move, upon request of the subscriber, its equipment and lines to any accessible point served by the exchange with which it is connected.

OWNERSHIP OF EQUIPMENT—Instruments and lines on subscriber's premises furnished by the company shall be and remain the property of the company.

MAINTENANCE—All ordinary expense of maintenance and repair, unless otherwise specified in the company's schedules, is to be borne by the company. If any instrument or piece of apparatus is destroyed or injured otherwise than by unavoidable accident, the subscriber is to pay the actual cost of replacing or restoring the same to its original condition.

NOTICE OF CHANGING LOCATION—Ten days' notice for changing location of telephones should be given. Subscribers are requested to report fully by letter any change in firm or name or business, for corrections in the following issue of Directory.

ENTERING SUBSCRIBER'S PREMISES—The company's representatives shall at all reasonable times have the right to enter the premises of the subscriber for the purpose of making connections or to inspect and repair the instruments and lines and, upon termination of the service, for the purpose of removing such instruments and lines.

RIGHT-OF-WAY—The company shall not be required to furnish nor be held liable for failure to furnish service where for any reason it has been unable to secure or continue in use its private right-of-way over a direct route then deemed expedient by the company.

EXCESSIVE USE OF PARTY LINES—When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished establish and furnish service to one other subscriber in the case of two-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line.

LIMIT TO USE OF PARTY LINES—Continuous use of party line by any station on the line must be limited to five minutes, whether the party using the station made the call or was called.

CHOICE OF EQUIPMENT—The equipment used by the company as a means of furnishing service to its subscribers is restricted to standard types and sizes designed to render efficient service. Except where choice between wall or desk types of telephone set is offered, the company reserves the right to determine the size and type of equipment which shall be furnished in each application for service.

UNAUTHORIZED ATTACHMENTS—The telephone equipment, apparatus, and lines furnished shall be carefully used and no instrument, appliance, or device of any kind, not furnished by the Telephone Company, shall be attached to or in any way used in connection with such telephone equipment, apparatus, or lines. If any instrument, appliance, or device of any kind other than that furnished by the Telephone Company is attached to or connected with any part of the Company's property, the Telephone Company reserves the right to remove such instruments, apparatus, or device and to suspend or discontinue service without any claim on the part of the subscriber.

No binder, holder or auxiliary covers shall be used in connection with any telephone directory furnished by the Telephone Company.

RESPONSIBILITY FOR MESSAGES—Subscribers are responsible for all charges for messages originating from or reversed to their telephone.

P. B. X. OPERATION—In the case of private branch exchange installation the subscriber shall furnish without charge to the Telephone Company, office room, light and heat, and the necessary employees for switching and the performance of operating service for said private branch exchange.

OBJECTIONABLE LANGUAGE—The subscriber shall not use, or permit to be used, profane, obscene or abusive language, or personate any other individual with fraudulent intent over the wires connected with his instrument, or use the same for any unlawful purpose.

ERRORS IN DIRECTORY LISTING—The Telephone Company issues directories to assist in furnishing prompt and efficient service and it does not guarantee to its subscribers correct listings therein. Every precaution is taken to prevent errors in and omissions of, directory listings, but they may occur and the Telephone Company will assume no liability for damages caused to a subscriber because of such errors or omissions. Likewise, the Telephone Company will not be a party to controversies arising between subscribers or others as a result of listings published in its directories.

SECURITY DEPOSITS—The Company may require from subscribers in all cases where it is considered necessary, a cash deposit or other satisfactory security in such amount as will in its judgment insure as far as may be practicable the payment of bills for telephone service rendered.

TERMINATION OF SERVICE—For any use of equipment or service, improper or contrary to the company's rules and regulations, the company reserves the right to terminate the service immediately, unless otherwise provided herein, upon written notice mailed to or left at the subscriber's premises.

REGULATIONS AND TARIFFS—The Telephone Company furnishes all of its various services and adjuncts thereto, subject to its published regulations and tariffs, a public file of which is located in the local Business Office. A representative of the Company will gladly lend assistance in securing information from such regulations and tariffs.

TERMS OF PAYMENT—The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment, and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at the subscriber's station, and for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or any other agency duly authorized to receive such payment. If objection in writing is not received by the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

NON-PAYMENT—In the event of abandonment of the station, the non-payment of any sum or any other violation by the subscriber of the Telephone Company's rules and regulations applying to the subscriber's contracts or to the furnishing of service, the company may without notice, either (a) suspend the service until all violations have ceased, or (b) terminate the subscriber's contract without the suspension of service, or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises.

RECONNECTION CHARGES—When service has been temporarily suspended for non-payment of charges, reconnection is made only upon payment of all of the charges due to date under the contract and in addition a reconnection charge of $3 is made.

RESIDENCE AND BUSINESS RATES—Any telephone that is advertised on stationery, in newspapers, or trucks, or in any other way than the one listed in the telephone directory, takes a business rate, no matter where the telephone is located.

JOINT USERS—Where two families or two business firms use the same telephone, the rate is one-half more a month than the regular rate for one family or one firm. This, of course, gives both families or both firms a separate listing in the telephone directory.

Long Distance Service

TO MAKE A LONG DISTANCE CALL—Dial "0." Give the operator the name of the town you are calling, the telephone number if known, or the name and address of the residence or business firm being called, followed by your own telephone number. If you wish to talk to a specified person, also give the name of that person.

STATION-TO-STATION SERVICE—A Station-to-Station Call is one on which you will talk with anyone available at the called telephone. Charges for these calls are based on an initial period of three minutes. Station-to-Station calls cost less than Person-to-Person calls, described below, because less operator labor and less use of long distance facilities are required to complete them.

PERSON-TO-PERSON SERVICE—A Person-to-Person call is one on which you specify a designated person, or an extension or department off a private branch exchange switchboard, to be reached at the called place. Charges are based on an initial period of three minutes. If the party cannot be reached directly by telephone, the operator, at your request, will arrange to send a messenger to summon the called person to a telephone. This will involve a small additional charge to defray the expenses of the messenger. Also at your request, the operator at no additional charge will make an appointment with the called party so that you can talk at a specified time.

NIGHT AND SUNDAY RATES—For both Station-to-Station and Person-to-Person calls special rates are in effect every night from 6 p.m. to 4:30 a.m. and all day Sunday. These rates are lower than corresponding week day rates on calls for distances of about 50 miles or more. The minimum reduced rate is 45 cents for Station-to-Station calls and in general 75 cents for Person-to-Person calls.

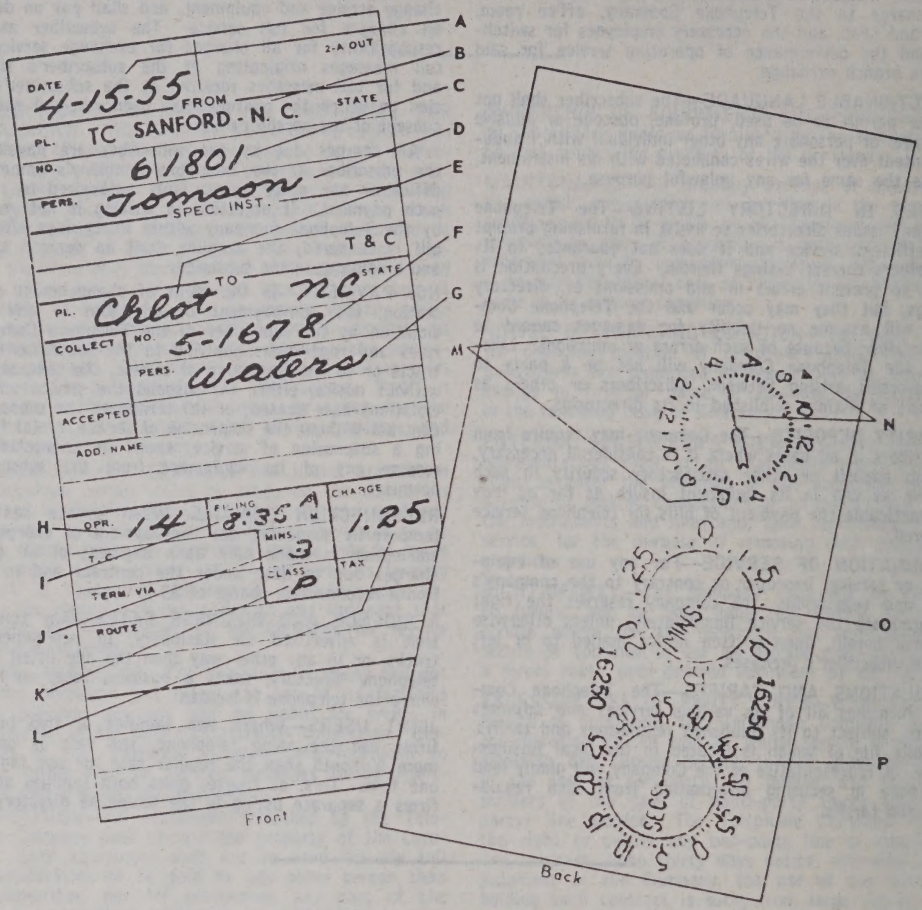
REVERSAL OF CHARGES—On both Person-to-Person and Station-to-Station calls reversal of charges is permitted without extra cost except on Station-to-Station calls of 35 cents or less for the initial period, which takes a slightly higher rate when sent collect.

CALL BY NUMBER—It will assist in furnishing the fastest long distance service if calls are placed by the telephone number. If you do not know the called number, give your call to the Long Distance operator in the usual manner and she will obtain the number for you.

RATE INFORMATION—If you wish to have the Long Distance operator tell you the cost of a call at the close of a conversation, notify her when you place the call.

SUBSCRIBERS ARE RESPONSIBLE for all charges for messages originating from, or reversed to, their telephones.

How To Read A Long Distance Ticket



A The date the call was placed.

B The name of the town and state in which calling party is located.

C The number from which the call was placed.

D The name of the party placing the call. (The long distance operator writes the name phonetically, that is, the way it sounds to her over the telephone.)

E The name of the town (Charlotte) and state in which called party is located.

F The telephone number of the called party or station.

G The name of the called party.

H The number of the operator handling the call.

I The time the call was placed.

J The number of minutes talked on the call.

K The classification of the call, that is, person-to-person or station-to-station.

L The amount billed for the call. This does not include the tax.

M The small triangle (explained under N below) which appears on the A side indicates that the call was placed between midnight and 12 o'clock noon. If the small triangle appeared on the P side it would indicate that the call was placed between 12 o'clock noon and midnight.

N Indicates the charge started at 8:41 A.M. The triangle corresponds to an hour hand and the arrow to a minute hand.

O Indicates the time elapsed in minutes since the charge started.

P Arrow "P" supplements arrow "O" and shows in seconds that portion of the time elapsed which cannot be accurately determined by the minute hand (arrow "O"). When arrow "P" has passed the 5 second mark, charges for an additional minute are applied on calls within the state. When the arrow has passed the 15 second mark, charges for an additional minute are applied on calls outside the state.

THE FOLLOWING INFORMATION IS IMPORTANT TO YOU . . .

With your monthly bill you receive the actual tickets made by the operator at the time your long distance calls were made. A record of these calls is retained in our office on film.

These tickets will provide you with a complete record of your calls. A brief study of the instructions on the reverse side of this sheet should enable you to understand the tickets without difficulty. Please bear in mind that the operators are instructed to spell names as they sound rather than make any attempt at actual spelling. Also, many cities and towns have long names and in order to save time and space the names of these towns are shortened by means of standard abbreviations used by all telephone companies. This will explain the odd spelling which occasionally appears on a ticket.

Please be sure to send or bring any tickets about which there is any question to our Business Office.

Sanford

JONESBORO, BROADWAY and OLIVIA, N. C.
INSTRUCTIONS

HOW TO USE THE DIAL TELEPHONE

The dial has ten openings and ten figures 1, 2, 3, 4, 5, 6, 7, 8, 9, and 0. One figure is associated with each dial opening. Some of the openings may also have letters on the dial. The letters will always be found in groups of three, for example, the letters "ABC" are found associated with the second opening and 'DEF" with the third opening, etc. You will not have occasion to use the letters at this time, however, it is most important not to confuse the letter "O" and the figure "Zero." The letter "O" is found with the three letters "MNO," while the figure "Zero" is associated with the last dial opening and the word "Operator."

WAIT FOR DIAL TONE

Remove the receiver from the hook and LISTEN FOR THE DIAL TONE WHICH IS A STEADY HUMMING SOUND indicating that the line is ready for you to dial. If you do not hear the dial tone within a reasonable length of time, hang up, wait a few seconds and try again.

HOW TO DIAL A NUMBER

When you hear the dial tone, place your finger in the opening associated with the first figure of the number, turn the dial around until your finger strikes the finger stop, then remove your finger and, without touching the dial, allow it to return to its normal position. Proceed in the same way to dial the other figures in the number. If your finger slips, or you make a mistake, hang up the receiver, wait a few seconds for the dial tone and dial again.

Before dialing a second call, always hang up the receiver for a few seconds to clear the previous connection.

RINGING AND BUSY SIGNALS

A few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-rr-ing sound, indicating that the bell of the called telephone is ringing, or you should hear the busy signal, a buzz, buzz-buzz, indicating that the called line is busy.

If the called telephone is busy, you should hang up your receiver and try the call again later.

If you do not hear either the ringing signal or the busy signal within half a minute, hang up your receiver for a few seconds and then try the call again.

CALLS FROM A PARTY LINE OR FROM A LINE WITH AN EXTENSION TELEPHONE

Listen to make sure that the line is not in use. If you do not hear the dial tone, ask if the line is being used. If no response is received, hang up the receiver and then try again.

However, if you hear successive clicks, indicating that someone else is dialing, wait until the dialing stops and then say that you have interferred with the call, that it will be necessary to hang up and dial the complete number again. Then replace your receiver on the hook.

If you hear another party on your line during or after dialing, say that the line is in use and request him to hang up his receiver. If the other party comes in on the line while you are dialing, after he hangs up, you should also hang up for a few seconds and then dial the complete number again.

TO CALL A PARTY ON YOUR OWN LINE

If the first four digits of a telephone number are the same as your own, that party is on your line. To call a party on your own line, dial the listed number. When connection is established, you will hear the busy signal. Then hang up your receiver. After allowing time for the bells of the party you are calling to ring several times, take down your receiver again and wait for an answer.

COIN BOX TELEPHONES

Instructions for operating coin box telephones are mounted on each coin box station.

TELEPHONE NUMBERS

All numbers in Sanford, Broadway, Jonesboro, and Olivia are prefixed with the exchange title "SPring."

In giving your telephone number to any one in a distant locality, or in placing long distance calls, and in all advertising, you should give your number as "SPring" followed by the digits of your telephone number.

On all local calls, within and between the above listed exchanges, the word "SPring" may be omitted and the desired number will be reached by dialing the five digit number in the directory.

For example: John Doe—SPring 4-9011 may be dialed as 4-9011.

DIALING BETWEEN SANFORD, JONESBORO, BROADWAY, OLIVIA

You can now dial from your exchange to any of the above exchanges. Numbers of all four exchanges will be found in one alphabetical listing. To reach someone in a different exchange such as a Sanford to Broadway call, dial the directory number for the Broadway party in the same manner outlined in the "How to Use Dial Telephones" section above.

Courtesy, Friendliness and a Pleasant

Voice are Good Telephone Habits

SOME OF THE MANY SERVICES
now offered our telephone users

ADDITIONAL LISTINGS

All members of the family or firm may be listed in this directory. Directs calls to them easily and promptly.

VOLUME CONTROL TELEPHONE

Just turn the little button at the left of the dial, and a built-in amplifier will increase the volume of the incoming voice. Very useful to people whose hearing is impaired.

EXTENSION TELEPHONES

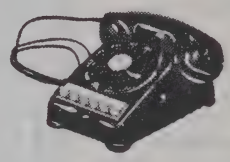
Extension telephones save you many steps and keep you from missing calls. At the bedside or in the kitchen, an extension is a protection as well as a convenience.

EXTENSION BELLS

Inside or outside, extension bells make sure you get calls when out of earshot of your telephone . . . in the yard, for instance. A cut-off key may be used to silence the ringing when not needed. Loud-ringing gongs are available where required.

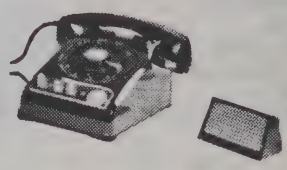
COIL CORD

Lessens tangling, catching on furniture. The built-in curl pulls out easily—springs back into a short convenient coil. In ivory, gray, brown, black.



PUSH BUTTON TELEPHONE

One, four, and six button models. Makes possible combinations of outside and inside lines to meet your home or business needs.



SPEAKER-PHONE

Can be operated without removing the handset on either incoming or outgoing calls. Your hands are free for other tasks. Others in your home or office who are nearby can participate in the conversation.

ELECTRONIC SECRETARY

Automatically answers calls when you're out, gives callers a recorded message and lets them leave a half-minute recorded message for you.

FOR FURTHER INFORMATION REGARDING THESE SERVICES,
PLEASE CALL OUR BUSINESS OFFICE

You Can Help Us to Speed and Improve Your Telephone Service

1. By consulting the information pages in the front of your telephone directory.
2. By making sure of the number before calling.
3. By speaking directly, clearly and slowly into the mouthpiece.
4. When called, by answering promptly.
5. By identifying yourself by name or firm when answering.
6. By hanging up gently.

Your telephone contains about two hundred parts, some quite delicate. We want you to have the best possible service at all times, and appreciate your cooperation in handling your telephone carefully.

FREQUENTLY CALLED NUMBERS

This space is provided for your convenience in listing frequently called numbers that are not shown in this, your local directory.

NAME	NUMBER

Classified Telephone Directory

The Classified Telephone Directory is published for the benefit and convenience of our subscribers. Each business subscriber is given one listing under one general classification without cost. The Telephone Company assumes no responsibility or liability for errors or omissions occurring in the Classified Telephone Directory. Errors or omissions will be corrected if reported by letter to the Company.

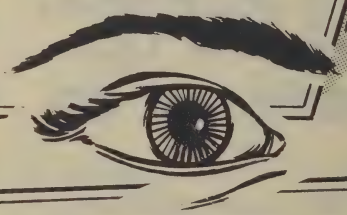
Sir Walter
OPTICIANS
Modern eyewear designed to tomorrow's fashion



WHAT IS AN OPTICIAN?

AN OPTICIAN is a skilled technician, who supplies and fits glasses on written prescription. He is trained to make the necessary facial measurements; to formulate the specifications necessary and to make the glasses or other appliances; and to adapt them to the patient, placing them properly in relation to the eyes. He supplies glasses or other appliances only on written authorization.
